MacOS Terminal Video Player: how it is put together

sketched from the file

MacOS Terminal Video Player: the run, step by step

If a step fails, the honest run says so and stops.

traced, not guessed, GK

Product map: what MacOS Terminal Video Player is for

WHAT IT IS

A small project in Markdown. The README and the files are the whole claim.

WHAT GOES IN

The files at the top of the tree: README.md.

WHAT COMES OUT

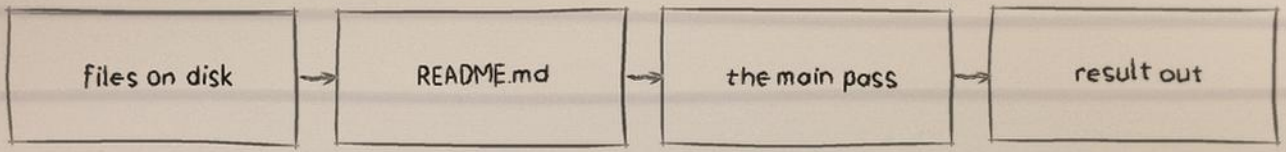

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.

mapped by hand, 

MacOS Terminal Video Player: data flow, in one direction

One direction. Anything the code does not do is not drawn.

second sheet, GK

MacOS Terminal Video Player in numbers, counted 2026-10-30

Counted from the local snapshot of this repo. Method for every number: VISUAL.md.

Markdown  9

1 files in the tree.
2 commits, first 2025-07-06, last 2025-07-06, from the local git log.
No test files by name in this snapshot.

counted and drawn, GK

MacOS Terminal Video Player: schematic of the apparatus

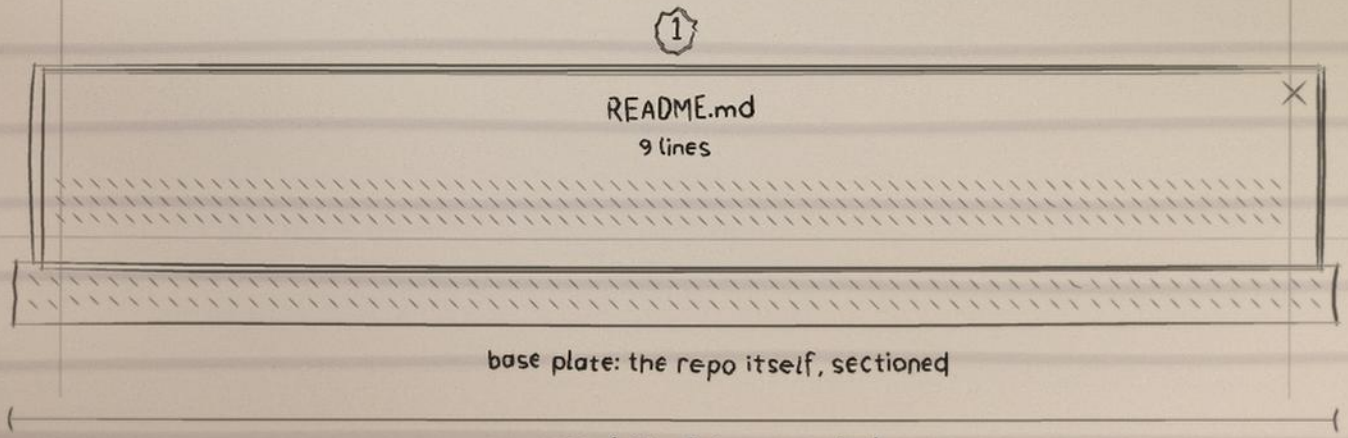

the document is the apparatus: its sections are the parts

construction lines left in, as drawn

parts list

1. README.md

in flow order, first to last

base plate: the repo itself, sectioned

span: 1 file, 9 lines counted

turns of the crank so far: 2 commits, 2025-07-06 to 2025-07-06

measured and sketched, GK
